An application developer, particularly full-stack web and mobile apps, with a Bachelor degree in Computer Science. My main objective is to obtain a position that will allow me to apply my knowledge & further enhance my acquired skills. I am able to work in busy environments, prioritize duties, take on jobs to balance the team workload, and be cooperative and helpful as much as possible. Learning new technologies and skills quickly (and independently if needed) is a forte of mine

EDUCATION

Lebanese University Faculty of Sciences   2016-2019
I took various classes aimed towards developing problem solving skills, advanced algorithm development, web application development, and many more that helped build my knowledge. My marks average at above 80%. The 3 years I spent there developed a strong foundation for me

Jobran Twaineh High School   2012-2015
My high school years where I studied mostly math and sciences. I graduated there with a Lebanese Baccalaureate in General Sciences
